

MOBILE PHONES – STUDENT USE

PURPOSE

To explain to our school community the Department's and Montrose Primary School's policy requirements and expectations relating to students using mobile phones and other personal mobile devices (including smart watches) during school hours.

SCOPE

This policy applies to:

DEFINITIONS

A mobile phone is a telephone with access to a cellular (telecommunication) system, with or without a physical connection to a network. For the purpose of this policy, Montrose Primary School's definition of a mobile phone extends to include devices with communication capabilities and includes smart watches with access to a cellular network and Bluetooth devices that can be connected to mobile phones to transmit information and enable communication.

POLICY

Montrose Primary School understands that students may bring a personal mobile phone or wearable mobile device to school, particularly if they are travelling independently to and from school.

At Montrose Primary School:

Personal mobile phone use

In accordance with the Department's [Mobile Phones Policy](#) issued by the Minister for Education, personal mobile phones must not be used at Montrose Primary School during school hours, including lunchtime and recess, unless an exception has been granted.

Where a student has been granted an exception, the student must use their mobile phone for the purpose for which the exception was granted, and in a safe, ethical and responsible manner.

Secure storage

Mobile phones owned by students at Montrose Primary School are considered valuable items and are brought to school at the owner's (student's or parent/carer's) risk. Students are encouraged not to

bring a mobile phone to school unless there is a compelling reason to do so. Please note that Montrose Primary School does not have accident insurance for accidental property damage or theft. Students and their parents/carers are encouraged to obtain appropriate insurance for valuable items. Refer to the school's 'Personal Property Policy'.

School will provide secure storage. Secure storage is storage that cannot be readily accessed by those without permission to do so.
